

# CLIMATE CHANGE IS REAL

## AND TRYING TO FIX IT FEELS OVERWHELMING

But every journey begins with a single step,  
and we can take that step together

### How will we do that?

By submitting comments to the EPA regarding their newly proposed **carbon pollution standards for fossil fuels**.

### Why does this matter?

Utility and gas companies will be flooding the EPA with comments favoring looser standards. **We need to make our voices heard, too!**

### When and where?

We will be meeting on Tuesday, June 27, at 7:30 p.m., on Zoom. **Register using the QR code.**

### Can't make it?

**Use this QR code** to send your comments. Magnify your impact by including a personal story or comment!
